PREFACE.....	I
LIST OF FIGURES.....	VII
LIST OF TABLES.....	IX
ABBREVIATIONS.....	XI
I. INTRODUCTION.....	1
II. MAINTAINING LEGITIMACY IN THE INFORMATION AGE – CONTROVERSIES AND CHANCES.....	9
II.1. LEGITIMACY, PARTICIPATION, REPRESENTATION AND ELECTIONS.....	10
II.1.1. Legitimacy.....	11
II.1.2. Legitimation crisis.....	12
II.1.3. Political participation.....	13
II.1.3.1. Classification by Barnes and Kaase (1979).....	14
II.1.3.2. Classification by Norris (2003a).....	15
II.1.3.3. What does it mean to take part in politics?.....	17
II.1.4. Decreasing political activity and its consequences for legitimacy.....	17
II.1.4.1. Party membership in Germany.....	20
II.1.5. Legitimacy through elections.....	23
II.1.5.1. Legitimacy through e-voting?.....	25
II.2. CHANCES AND DRAWBACKS OF THE INTERNET AND RELATED TECHNOLOGIES – AN OVERVIEW.....	26
II.3. CHANCES OF THE INTERNET AND RELATED TECHNOLOGIES.....	29
II.3.1. Information and education.....	31
II.3.1.1. Interest in political topics on-line – a statistical review.....	33
II.3.2. Interaction and policy making.....	37
II.3.2.1. Opportunities for coping with the government on-line.....	38
II.3.2.2. Participation in the political decision making process.....	39
II.3.2.3. Discussions and political debates.....	40
II.4. CONTROVERSIES.....	43
II.4.1.1. Activating politically ‘inactive’ or just disclosing poor and illiterate people – the digital divide versus digital deluge.....	43
II.4.1.2. The digital divide.....	44
II.4.1.3. Computer literacy.....	46
II.4.1.4. Activating the politically active.....	47
II.4.1.5. Danger of digital deluge.....	49
II.4.1.6. Statistical data on Internet usage and access quality.....	50
II.4.1.7. Germany: How many are on-line?.....	51
II.4.1.8. Quality and speed of the Internet connection in Germany.....	55
II.4.2. ‘Colonisation’ of the Internet by the traditional mass media.....	58
II.4.3. Information and participation or entertainment?.....	59
II.4.4. Technology risks.....	61
II.4.4.1. Computer and network security.....	62
II.4.4.2. Electronic surveillance.....	63
II.4.4.3. Risks of electronic voting.....	64
II.4.5. Trust deficits and the challenge of cyber-trust.....	68
II.4.6. Object of the further work.....	69
III. METHODOLOGY.....	71
IV. INDICATORS OF ELECTORAL PARTICIPATION.....	81
IV.1. FACTORS IN THE VOTE DECISION.....	82
IV.2. SOCIAL FACTORS INFLUENCING VOTER TURNOUT.....	83
IV.2.1. Formal framework and its sub-categories.....	84
IV.2.2. How formal framework influences the voter turnout - discussion.....	85

IV.2.2.1. Frequency of elections.....	85
IV.2.2.2. Obligatory voting.....	85
IV.2.2.3. Registration and election tax.....	86
IV.2.2.4. Votes counting methods determining electoral districts and voters.....	87
IV.2.2.5. Electoral law.....	88
IV.2.2.6. Environmental factors and voting facilities.....	90
IV.2.2.7. Postal voting.....	90
IV.2.3. Political institutions.....	93
IV.2.3.1. The electoral and political system.....	94
IV.2.4. General patterns according to empirical results.....	95
IV.3. INDIVIDUAL FACTORS INFLUENCING THE VOTER TURNOUT.....	96
IV.3.1. Social classes vs. life-style – a new voters segmentation model.....	97
IV.3.1.1. Life-style segmentation.....	97
IV.3.1.2. Life-styles and partisanship in Germany.....	99
IV.3.1.3. Internet usage in the milieu-model.....	102
IV.3.2. Floating voters, core supporters and non-voters.....	104
IV.3.2.1. Causale of floating voting.....	105
IV.3.2.2. Floating voters' characteristics.....	106
IV.3.2.3. Floating voters in Germany.....	107
IV.3.3. Strategic voting.....	108
IV.3.3.1. Strategic behaviour in elections.....	109
IV.3.3.2. Strategic voting in Germany.....	111
IV.4. DECREASING VOTER TURNOUT IN GERMAN GENERAL ELECTIONS – FACTS AND REASONS.....	112
IV.4.1. Voter turnout in Germany in relation to other countries.....	113
IV.4.2. Development of voter turnout in Germany.....	116
IV.4.3. Generational change.....	120
IV.5. THE IMPACT OF E-VOTING ON ELECTIONS.....	127
IV.5.1. How can factors be changed through e-voting?.....	127
IV.5.2. Formalizing expectations towards e-voting.....	129
V. NEW TECHNOLOGIES AS FACILITATORS OF POLITICAL PARTICIPATION.....	133
V.1. LAUDON'S CLASSIFICATION OF TECHNOLOGIES.....	136
V.1.1. Data-transformation technology.....	138
V.1.2. Mass-participation technology.....	140
V.1.3. Interactive technologies.....	141
V.2. POTENTIALS OF THE INTERNET IN THE PROCESS OF DEMOCRACY REINVIGORATION.....	142
V.2.1. Interactive skills of the Internet.....	143
V.2.2. 'Pluralistic' attributes of the Internet.....	144
V.3. FROM E-GOVERNMENT TO E-VOTING – DEFINITION AND CLASSIFICATION.....	146
V.3.1. Implementing an e-government in Germany.....	148
V.3.1.1. Implementing e-voting.....	149
V.3.1.2. E-government initiatives.....	150
V.3.1.3. User acceptance and usage of e-government services.....	152
V.3.2. E-democracy.....	153
V.3.3. E-voting.....	155
V.4. OPPORTUNITIES OF E-VOTING.....	159
V.4.1. Benefits for voters.....	160
V.4.2. Benefits for the government.....	161
V.4.3. Benefits for political parties and candidates – e-campaign.....	162
V.5. MEETING THE CHALLENGE OF TRUSTWORTHY E-VOTING.....	164
VI. TRUST DIMENSIONS RELEVANT FOR E-VOTING.....	167
VI.1. INTERPERSONAL TRUST.....	169
VI.1.1. The trust game and rational calculus.....	171
VI.1.1.1. Crime rate and number of lawyers.....	173

VI.1.2. General reciprocity.....	179
VI.1.3. Individualistic voter behaviour, declining moral and social trust.....	180
VI.1.4. (Un)moral capitalism – changing function of the national models.....	183
VI.2. POLITICAL DIMENSION OF TRUST.....	189
VI.2.1. Hobbes' general definition of trust.....	190
VI.2.2. Machiavelli's response to the 'pessimistic anthropology'.....	191
VI.2.3. John Locke's constitutional state.....	192
VI.2.4. Federalist Papers.....	192
VI.2.5. Max Weber's 'charismatic leader'.....	193
VI.2.6. Moral and politics.....	194
VI.2.7. Trust in politics vs. globalisation and new governance models.....	194
VI.3. TRUST IN POLITICS AND ITS INSTITUTIONS VS. SOCIAL TRUST.....	197
VI.4. COMPUTER CREDIBILITY AND CYBER-TRUST.....	200
VI.5. TRUST IN E-COMMERCE.....	202
VI.5.1. Egger's Model of Trust in E-Commerce (MoTEC).....	203
VI.5.1.1. Pre-interactive filters.....	204
VI.5.1.2. Interface properties.....	208
VI.5.1.3. Informational content.....	211
VI.5.1.4. Relationship management.....	216
VII. MODEL OF TRUST IN E-VOTING (REVIEWED MOTEC).....	218
VII.1. PRE-INTERACTIVE FILTERS.....	221
VII.1.1. General propensity to trust - reviewed.....	222
VII.1.2. General attitude towards e-voting.....	223
VII.1.3. Trust in politics and political institutions.....	224
VII.1.4. Reputation of the political system.....	224
VII.1.4.1. Actual discussion on reforming the political system in Germany.....	225
VII.1.5. Reputation of the electoral system.....	226
VII.1.6. Reputation of the (contemporary) government.....	228
VII.1.7. Reputation of the e-voting system.....	229
VII.1.8. Previous experiences with e-government.....	230
VII.1.9. Transference (off-line and on-line).....	230
VII.2. INTERFACE PROPERTIES.....	231
VII.2.1. Branding and visual design.....	232
VII.2.2. Usability.....	233
VII.2.2.1. Organisation and navigation.....	233
VII.2.2.2. Flexibility.....	234
VII.2.2.3. Voter convenience.....	234
VII.2.2.4. Voter mobility.....	234
VII.2.2.5. Efficiency.....	235
VII.3. INFORMATIONAL CONTENT.....	235
VII.3.1. Competence of the government.....	236
VII.3.2. Competence of the e-voting system.....	236
VII.3.3. Policy.....	237
VII.4. INTERACTION & COMMUNICATION FILTERS.....	237
VII.4.1. Risks of e-voting.....	239
VII.4.2. Terms and definitions.....	240
VII.4.3. Requirements for democratic e-voting.....	241
VII.4.3.1. Accuracy.....	242
VII.4.3.2. Verifiability.....	242
VII.4.3.3. Non-coercibility.....	243
VII.4.3.4. Fairness.....	243
VII.4.3.5. Eligibility.....	244
VII.4.3.6. Privacy and anonymity.....	244

VII.4.4. Threats to e-voting	246
<i>VII.4.4.1. Threat scenarios concerning illegal access to voter data over networks.....</i>	<i>248</i>
VII.4.5. Potential political risks of automation	252
<i>VII.4.5.1. Threat scenario concerning manipulation of election output by swapping votes</i>	<i>from one party to another.</i>
.....	254
VII.4.6. Importance of the legal framework	257
VII.4.7. The risk of too much security.....	258
VII.5. RELATIONSHIP MANAGEMENT FOR TRUSTWORTHY E-VOTING	259
VII.5.1. Announcing election results	260
VII.5.2. Frequent improvement of the e-voting system	261
VII.5.3. Monitoring and controlling – establishing new organisations	261
<i>VII.5.3.1. Third-party certification</i>	<i>263</i>
<i>VII.5.3.2. Threat scenario: Negative press coverage caused by negative valuation by a</i>	<i>certification authority</i>
.....	264
VII.5.4. Improving the electoral system.....	265
<i>VII.5.4.1. Actual aspects of the electoral reform in Germany</i>	<i>267</i>
VII.6. FINAL PROPOSAL FOR THE MODEL OF TRUST IN E-VOTING (MOTEV)	268
VIII. CONCLUSIONS AND SUGGESTIONS FOR FUTURE RESEARCH	271
VIII.1. THEORETICAL IMPLICATIONS	272
VIII.2. IMPLICATIONS FOR PRACTICE.....	274
VIII.3. PROSPECTS AND LIMITS TO E-VOTING	277
A SHORT OUTLOOK ON THE INTERNET'S FUTURE	280
DICTIONARY	287
BIBLIOGRAPHY	288
