6.1	Technology policy during military rule from 1964 until 1985	92
6.2	The weakness of the NIS and the end of import substitution industrialization	94
6.3	Regional development during the ISI period	97
6.4	Structural adjustment and the need for competitiveness	99
6.5	Regional development and federalism in the 90s	103
6.6	Where Brazil currently stands: Some facts and figures	105
7.	Characteristics and institutions of the national level	113
7.1	Conselho Nacional de Ciência e Tecnologia – CCT	114
7.2	The Ministry for Science and Technology (MCT)	116
7.2.1	The Action Plan for Science, Technology and Innovation 2007-2010 (PACTI)	120
7.2.2	The Brazilian Innovation Agency FINEP	124
7.2.3	The Sectoral Funds for S&T (Fundos Setoriais para Ciência e Tecnologia)	128
7.3	The “Lei do Bem” and the “Lei de Inovação”	131
7.4	The higher education sector and the scientific community	135
7.5	Brazilian firms and the new Industrial, Technological and Foreign Trade Policy (PITCE)	140
7.6	Concrete measures to support interaction on the subnational level	148

8. Multi-level Governance, the arenas for negotiation and the ST&I policy network	151
8.1 Federalism	151
8.1.1 The devolution of ST&I policies	151
8.1.1.1 The institutional isomorphism on the subnational level	153
8.1.1.2 The concentration of innovative capabilities	157
8.1.2 The process of finding the right balance between centralization and decentralization of policy-making competencies	161
8.1.2.1 The limited power of subnational entities in national politics	162
8.1.2.2 The federal policy monopoly due to tight subnational budgets	165
8.2 ST&I policies in Congress	168
8.2.1 Some general features of congressional politics	169
8.2.2 The limited interest of ST&I in Congress	171
8.3 The National Council of State Secretaries for Science and Technology (CONSECTI)	174
8.4 The power structure of the policy network	177
8.4.1 The structure prior to the PACTI 2007-2010	178
8.4.2 The current structure of the policy network	179
9. Evidence of two regional innovation systems	184
9.1 Introducing Espírito Santo	184
9.1.1 Endogenous potential and impact of the national level	187
9.1.2 The role of UFES in the RIS	188
9.1.3 The role of regional politics	190
9.1.4 Assessing the ES case	197
9.2 Introducing Rio Grande do Sul	199
9.2.1 The impact of the national level and the important role of universities in RS	202
9.2.2 The role of the Industrial Federation FIERGS	203
9.2.3 The role of regional politics and the SECT-RS	205
9.2.4 Regional development plans	209
9.2.5 Assessing the gaúcho case	210
9.3 Results from the case studies	212
10. Conclusions	215
10.1 Political factors why the innovative capabilities are so low	217
10.2 Case specific and general hypothesis	223
10.3 Outlook and suggestions to meet the policy challenges	225

11. Annex	231
12. Bibliography	235
