Figures & Tables	xi
Abbreviations	xiii
Part A – Approach	1
1 Introduction	1
2 Global Changes: Approaching the Research Object.....	7
2.1 Paradigm – Sustainable Development.....	7
2.2 Transnationalization – The Challenge.....	14
3 Definitions – The Key Terms.....	22
3.1 Environment	22
3.2 Technology	25
3.3 Environmental Technology	26
3.3.1 General Understanding.....	26
3.3.2 International Attempts of Definition	27
3.3.3 Environmental Technology Transfer Institutions	30
3.3.4 Categorization of Environmental Technology	31
3.4 Newly Industrializing Countries	34
3.4.1 Rapid Economic Growth and the Environment	36
4 Environmental Problems - A Challenge for Nation-States.....	41
4.1 Categorization of Environmental Problems	41
4.2 Transnational Environmental Problems	42
5 Focus of the Study.....	46
6 Theoretical and Methodological Approximations	50
6.1 Theoretical Framework	50
6.2 Changing Role of States	50
6.3 Academic Discussion	52
6.3.1 Neo-Realists and Globalists	53
6.3.2 Specific Approaches.....	56
7 Methodical Approach.....	65
7.1 Actors Analysis.....	66
7.2 Policy-Cycle	69
7.3 Comparison.....	73
7.4 Empirical Research.....	74
7.5 Qualitative and Quantitative Methods.....	76
Part B – Background.....	77
8 History of Transnational Environmental Cooperation.....	77
8.1 Multilateral	78

8.1.1 Case of the “Whaling Convention”.....	81
8.1.2 Case of the “Kyoto Protocol”.....	84
8.2 Bilateral	91
9 Framework Conditions	94
9.1 Impact on the Environment	94
9.1.1 Imports of Forest & Agriculture Products	94
9.1.2 Imports of Resources.....	97
9.1.2.1 Case of Aluminium	98
9.1.3 Greenhouse Gas Emissions	99
Part C – Analysis.....	103
10 Initiation	103
10.1 Development of Transnational Relations.....	103
10.2 Phase of Ecological Ignorance	106
10.3 Growing Environmental Consciousness	111
10.4 Growing Public Development Assistance.....	114
10.4.1 Quantification of Official Development Assistance (ODA).....	116
10.4.1.1 Growing Environmental Orientation in ODA	123
10.5 Political Motives of Initiation.....	125
11 Estimation.....	128
11.1 International Conferences.....	128
11.2 Institutional Changes in Japan’s ODA	133
11.2.1 ODA Charta.....	135
12 Selection.....	138
12.1 Basic Environment Law and Basic Environment Plan	138
12.2 Green Aid Plan	139
12.2.1 Green Aid Plan for Indonesia.....	141
12.3 National Action Plan for “Agenda 21”.....	144
13 Implementation	147
13.1 Institutional Framework	147
13.2 Consulting Companies.....	147
13.3 Environmental Technology Transfer by Local Organizations.....	150
13.3.1 Kitakyushu International Techno-Cooperative Association	150
13.3.2 International Environmental Technology Centre.....	151
13.3.3 International Centre for Environmental Technology Transfer	152
13.3.3.1 Palembang Eco-Phoenix Plan Project.....	154
13.3.4 Centre for International Transfer of Environmental Techniques...	155
13.4 Environmental Technology Transfer by National Agencies.....	157
13.4.1 Japan International Cooperation Agency Projects	157
13.4.1.1 Integrated Air Quality Management	157

13.4.1.2 Environmental Management Centre	158
13.4.2 Overseas Economic Cooperation Fund Projects	160
13.5 Environmental Technology Transfer by Private Industry	161
13.6 Environmental Technology Transfer by Non-Governmental Organizations.....	163
14 Evaluation.....	165
14.1 Criteria of Effects	166
14.1.1 Depth of Effect	166
14.1.2 Breadth of Effect	166
14.1.3 Speed of Effect	167
14.1.4 Exactness of Effect.....	167
14.2 Criteria of Effects in Context	167
14.3 Hierarchy of Motives.....	170
15 Termination.....	175
Part D – Conclusions.....	177
16 Conclusions	177
17 Sources	185
17.1 Bibliography	185
17.2 Internet.....	214
17.3 Press & Radio	215
17.4 Experts	216
18 Appendix	219
18.1 Index of Japanese terms.....	219
18.2 Index of German terms	220
18.3 Japan - International environmental treaties in force	221
18.4 Germany - International environmental treaties in force	224
