| 1 Conceptual reflections | 1 |
| 1.1 Introduction: using the prism of water management | 1 |
| 1.2 Water management in the context of neoliberalism | 4 |
| 1.2.1 The rise of neoliberalism | 4 |
| 1.2.2 Assessing neoliberalism..... | 7 |
| 1.3 Neoliberal concepts in water management..... | 10 |
| 1.3.1 Decentralization..... | 10 |
| 1.3.2 Privatization..... | 11 |
| 1.3.3 Commercialization..... | 16 |
| 1.4 Political ecology: grasping materiality and the state | 17 |
| 1.4.1 Conceptualizing water management in the light of materiality | 18 |
| 1.4.2 Conceptualizing water management in the light of the state | 20 |
| 1.5 Micropolitics: grasping social practices within organizations | 23 |
| 1.5.1 Approaching micropolitics from organization sociology | 23 |
| 1.5.2 Broadening micropolitics: the theory of structuration..... | 26 |
| 1.6 Developing research questions..... | 28 |
| 1.6.1 Analysing social practices within water management | 28 |
| 1.6.2 Formulating four main research questions | 31 |
| 2 Methodological reflections | 34 |
| 2.1 Conditions of field research..... | 34 |
| 2.1.1 Research permits..... | 34 |
| 2.1.2 Access to governmental water organizations | 36 |
| 2.1.3 Working within governmental water organizations | 37 |
| 2.2 Towards ethnographies of the powerful..... | 40 |
| 2.2.1 Characteristics of qualitative ethnographic research | 40 |
| 2.2.2 Participant observation | 42 |
| 2.2.3 Qualitative interviews..... | 44 |
| 2.2.4 Document analysis..... | 47 |

| | | |
|----------|--|------------|
| 2.3 | Outline of the study..... | 48 |
| 3 | General framework of Khartoum water supply | 51 |
| 3.1 | Political and socio-economic framework of Sudan..... | 52 |
| 3.1.1 | Political aspects of the colonial administration..... | 52 |
| 3.1.2 | Political aspects after independence | 53 |
| 3.1.3 | Political aspects of the 1989 Government..... | 55 |
| 3.1.4 | Socio-economic aspects of the 1989 Government..... | 59 |
| 3.2 | Urban development of Greater Khartoum | 62 |
| 3.2.1 | Population growth and urban extension..... | 64 |
| 3.2.2 | Urban planning and increasing water demand..... | 66 |
| 3.3 | The governmental water supply system of Khartoum | 68 |
| 3.3.1 | Water production..... | 68 |
| 3.3.2 | Water distribution..... | 73 |
| 3.4 | Conclusion: the emergence of a water supply gap | 76 |
| 4 | Decentralizing governmental water management | 80 |
| 4.1 | Decentralizing governmental water management in Sudan..... | 80 |
| 4.1.1 | From CEWA to the National Urban Water Corporation..... | 80 |
| 4.1.2 | The 1994 Water Sector Reform..... | 85 |
| 4.1.3 | Conclusion: divide and rule..... | 99 |
| 4.2 | Decentralizing governmental water management in Khartoum | 102 |
| 4.2.1 | From the National Urban Water Corporation to KSWC | 102 |
| 4.2.2 | Enhancing decentralization at KSWC..... | 106 |
| 4.2.3 | Contesting decentralization at KSWC..... | 109 |
| 4.3 | Conclusion: contested decentralization and the role of power | 113 |
| 5 | Privatizing governmental water management | 115 |
| 5.1 | Initiating privatization policies in Sudan..... | 115 |
| 5.1.1 | The Economic Salvation Programme | 115 |
| 5.1.2 | The role of the former Minister of Finance | 117 |
| 5.2 | Initiating water privatization at KSWC..... | 120 |
| 5.2.1 | The role of the third KSWC General Manager..... | 120 |
| 5.2.2 | The role of brokers in water management privatization | 123 |

| | |
|--|------------|
| 5.2.3 Water privatization in current laws and policies | 125 |
| 5.3 Implementing water privatization at KSWC..... | 127 |
| 5.3.1 Outsourcing water fee collection | 128 |
| 5.3.2 Outsourcing water network construction..... | 134 |
| 5.3.3 Outsourcing water treatment plant funding and operation | 140 |
| 5.4 ‘Governmentalizing’ water privatization..... | 147 |
| 5.4.1 Enhancing water management through privatization..... | 147 |
| 5.4.2 Impeding water management through privatization | 153 |
| 5.4.3 Establishing a government-private continuum..... | 161 |
| 5.5 Conclusion: contested privatization and the role of the state | 165 |
| 6 Commercializing governmental water management | 170 |
| 6.1 Initiating water commercialization at KSWC..... | 170 |
| 6.2 Internal KSWC reforms | 173 |
| 6.2.1 Enhancing new staffing policies..... | 173 |
| 6.2.2 Streamlining internal KSWC work processes..... | 178 |
| 6.2.3 Enhancing training and performance-based evaluation | 184 |
| 6.2.4 Enhancing customer orientation..... | 188 |
| 6.2.5 Conclusion: clashing mentalities and micropolitics..... | 191 |
| 6.3 Water price reforms | 193 |
| 6.3.1 Increasing water prices..... | 193 |
| 6.3.2 Cutting water due to unpaid water bills | 203 |
| 6.3.3 Installing prepaid water meters..... | 205 |
| 6.3.4 Conclusion: moral obligations and macropolitics..... | 209 |
| 6.4 Enhancing integrated water management..... | 210 |
| 6.4.1 Setting up the WAM team..... | 210 |
| 6.4.2 Enhancing the billing system | 215 |
| 6.4.3 Establishing District Metered Areas (DMAs) | 221 |
| 6.4.4 Enhancing open data integration | 227 |
| 6.4.5 Conclusion: competing rationales and micropolitics | 231 |
| 6.5 Conclusion: contested commercialization and the role of politics | 235 |

| | |
|---|-----|
| 7 Relating water management to the political system | 242 |
| 7.1 The ‘silent society’ | 242 |
| 7.1.1 Expanding the reach of the ruling party | 243 |
| 7.1.2 Spreading uncertainty | 245 |
| 7.1.3 Strategies to challenge uncertainty | 249 |
| 7.2 ‘Highly politicized rule’ | 251 |
| 7.2.1 Expanding political appointments | 251 |
| 7.2.2 Overruling technical-engineering rationales | 253 |
| 7.3 Conclusion: political waters | 257 |
| | |
| 8 Conclusion | 259 |
| 8.1 Assessing political ecology and the prism of water management | 259 |
| 8.2 Assessing micropolitics and structuration | 263 |
| 8.3 Outlook: neoliberal reforms and water management | 265 |
| | |
